

WARNING: These products may represent a possible shock or fire hazard if improperly installed or attached in any way.

Installation Instructions for Tape Lights:

1. CAUTION:

Products should be installed in accordance with these instructions, current electrical codes, and/or the current National Electric Code (NEC).

- Make sure that the electrical power to the fixture is disconnected prior to any installation.
- The LED tape light is suitable for damp location only.
- MAX. run of 16 feet.

2. COMPONENTS:

Components Required:

- A. LED Driver
- B. Controls
- C. LED Tape Light

3. LED TAPE LIGHT:

Each roll has (16) 1ft detachable (with mini plug-in connectors) sections with 3M adhesive tape on the back.

LED Tape Light Roll, 24V, 4.4W/ft, 18 LED/section

4. TEST CONNECTION:

Prior to installation, connect LED tape light to LED driver, turn on power and test connections to ensure system is operating properly. Turn off power before mounting.

5. MOUNT TAPE LIGHT:

- A. Clean surface before mounting LED tape light.
- B. Peel off 3M adhesive backing. (Fig 2.)
- C. Press the LED tape light to mounting surface, working from one end to the other. (Fig 3)

6. COMPLETE ASSEMBLY:

Final assembly is shown below. MAX. run of 16 ft.
